2. Gordon Stewart advised me that we now have the names of the two Princeton undergraduates who are coming to the Agency for summer employment pursuant to the Director's agreement. He also said that Yale had made a similar approach through [REDACTED] and that he had told J. J. that we were experimenting with the Princeton boys this year and thought that we would like to do this before opening the program.

3. I participated in a luncheon and briefing for Brigadier General John M. Breit, the new Director of the Office of Security Investigations, Department of the Air Force.
